1 Center Panel
1 Set of 2 Baffle Filters
(54" & 60" include 2 sets/4 Filters)

Aluminum Mesh
Set Includes:
Set of 2 Filters
(Some models need 4 Filters)

Slim Baffle
Set Includes:
Set of 2 Slim Baffles
(Some models include
2 Sets/4 Filters)

BAFFLE FILTER CLEANING

To remove Baffle Filters, remove center panel by pulling panel toward the front of the hood, lift up to remove. Move filters to the center of the hood, pull baffle towards the front of the hood and lift out. To remove grease tray, slide tray to the top of the hood and lift out. Grease will accumulate in grease tray. Clean with hot water and polish with stainless steel cleaner.

ALUMINUM MESH & SLIM BAFFLE FILTER CLEANING

Clean filters often for the best performance. How often depends on cooking style. Use hot water and a degreaser to clean.

May be used in the dishwasher through the RINSE cycle ONLY. Some detergents may discolor filters. Slim Baffle, polish with stainless steel cleaner.
